TRANSPLANTATION (contd)

Carcinogenesis investigated by nuclear transplants C-5755
Growth and development of oral organ anlagen D-829
Calcification of teeth and bone D-876
Transplantation of the costochondral growth center D-1017
Explantation and transplantation of mouse tooth germs D-1060
Investigation of tooth bearing bone graft D-1107
Growth, repair and structure of acellular bone D-1206
Study of methods and materials for tooth storage D-1212
The fate of intramembranous bone transplants D-1313
Growth of bone in non-functional sites ... D-1434
Irradiation and acquisition of immunity ... E-1178
Cellular antigens in production of hemolytic disease E-1415
Mixed agglutination for study of immune reactions E-3666
Naturally occurring delayed-type iso-hypersensitivity E-4131
Response of connective tissues to hormones G-4433
Cytophysiology of pituitary gonadotrophic cells G-4723
Studies on interaction of environmental influences G-5300
Embryo development and environmental temperatures G-5458
Physiologic and genetic factors in avian development G-5544
Influence of adult tissues on salamander larvae G-5619
Ectoderm and mesoderm in neurulae G-5734
Nuclear transfers in uv-irradiated Amoeba proteus G-6045
The differentiation of the hypomere in salamanders G-6178
Development of chick embryo cells and tissues G-6334
Nuclear differentiation during embryogenesis G-6846
Survival of placental grafts in millipore chambers G-6923
Teflon as a tendon substitute G-6931
Studies on the physiology of the mammalian oviduct G-7063
Genetic control of differential cell function G-7428
The effects of x-rays upon embryonic development G-7434
Gene structure, enzyme activity and pleiotropy G-7464
Morphogenetic cellular death G-7603
Effect of normal grafts in x-rayed urodele limbs G-7604
Phenotypic difference of armadillo quadruplets G-7855
Polarographic studies in normal and traumatized bone G-7871
Replantation of amputated limbs G-8014
Vascular reinforcement of tissues G-8433
Development of phenocopies in the chick embryo G-8505
Hypertensive vascular disease H-96
Peripheral arteriosclerosis of the lower extremity H-633
Replacement of coronary circulation with systemic blood H-2010
Myocardial revascularization H-2480
Heritability of cardiovascular adaptations to stress H-2566
Transplantibility of vein grafts H-2759
Developmental program for cardiovascular study H-2806
Mechanisms for diminishing atheromata ... H-3207
Alterations of the arterial tissue in atherosclerosis H-3444
New long range experiments in heart transplantation H-4067
Studies of vascular surgery with the peripheral circulation H-4182
Treatment of central nervous system vascular disease H-4351
Construction of accessory myocardial envelope H-4499
Deteriorative and regenerative vascular responses H-4865
Effect of hormone on intraocular coronary transplants H-5381
Experimental portal hypertension H-5524
Collateral circulation in the ischemic extremity H-5723
Electromagnetic energy transfer through chest walls H-5854
Arterial repair of transposition of the great vessels H-6082
Cardiovascular studies H-6163
Effects of grafts on energy losses in large arteries H-6167
Equipment of a new experimental cardiology laboratory H-6255
Adaptations of the bat to hibernation and flight H-6260
Clinical research center H-6315
Learning and regeneration in the planarian M-2946
The behavior of Planaria M-4774

Autotransplantation

Effect of fundus replacement on gastric function A-790
Transplantation of liver tissue A-2975
Survival of the bowel under various experimental conditions A-3361
Function and blood flow in hepatic transplantation A-4022
Direct measurement of plasma ACTH A-4122
Experimental utilization of liver autotransplantation A-4255
Experimental peptic ulcer by duodenal transplantation A-4606
Basic concepts in stapedial surgery B-1588
Antiserum as a determinant in tumor-host interactions C-1594
Radiobiological technics in human cancer therapy C-3896
Steroidogenesis in regenerated adrenocortical tissue C-3989
Pathological studies of skin grafts and wounds C-4001
Autotransplantation of cancer CY-4250
Autologous transplant of human tumors ... C-4695
Study of desensitization and organ transplantation C-5374
Metastasis of glial tumor cells C-5578
Experimental transplantation of teeth D-311
Evaluation of bovine bone implants in dental surgery D-870
Transplantation on hamster bone growth centers D-1157
Autogenous and homogenous transplantation of articular cartilage ... G-8012
Storage of kidney by hypothermia and infusion G-8472
Developmental program for cardiovascular study H-2806
Evaluation of mitral insufficiency H-2825
Use of ileal transplants as aortic autografts in dog H-3848
Augmentation of myocardial function H-4340
Intracardiac surgery and surgical research H-4658
Hemodynamics in fetal aortic pedicle transplants H-4692
Research in defibrillation and aortic insufficiency H-5101
Transplantation of artery to bone H-5205
Surgical and antigenic studies of heart-lung grafts H-5373
Experimental surgical therapy of myocardial infarction H-5433
A study of the functions of the hypoxic kidney H-5625
Lung transplantation H-5789
Microvascular surgery H-5894
Study of experimental lateral patch arterioplasty H-6070
Cardiovascular-renal and transplantation research center H-6370

Heterotransplantation

Role of adipose tissue in lipogenesis A-1230
Studies in heterologous parathyroid implantation A-5127
Growth and serial transplantation of human tumors CY-2042
Xenoplastic studies of amphibian limb regeneration C-2913
Experimental chemotherapy of cancer ... CY-3192
Adjuvant chemotherapy in cancer surgery CYP-3555
Heterologous transplant of human tumors CY-3724
Virus etiology and therapy of malignancy in pediatrics CY-3845
Pathological studies of skin grafts and wounds C-4001
Chemotherapy and human cancer heterotransplants CY-4018
Effect of chemotherapy on immune responses in hamsters CY-4048
Effects of animal viruses on human malignant disease CY-4089
Studies of an oncolytic agent present in urine CY-4172
Properties of heterotransplanted skeletal tumors C-4265
Human tumor transplantation-reactions of host to tumor C-4273
Experimental reticulo-endothelial tumors ... C-4311
Tumor inhibition by sensitized lymph node grafts C-4337
Pathology of cancer C-4555
Growth of human tumors in fetal rats C-4703
Abnormal human tissue heterotransplantation C-4904
Heterologous transplants in study of oncogenic viruses C-4908
Hormonal regulation of malignant melanoma CY-5104
Changes in prostatic carcinoma during progression C-5155
Morphogenesis of benign and malignant trophoblast C-5320
Abrogation of tumor strain specificity by mucin C-5332
Changes in glia and neurons in pathologic conditions C-5482
Transplantation of human neoplasms to hamsters CY-5537
Changes in prostatic carcinoma during progression C-6072
Pathogenesis, histogenesis and therapy of human testicular tumors CY-6113
Histochemical behavior of melanocytes ... G-4435
Nuclear functions and growth synchrony in Amoeba G-6731
Regulation in the developing wing of the chick embryo G-7246
Myogenesis and chondrogenesis at limb regeneration G-7491
Transplantation of tissues H-1630

Homotransplantation

TRIPALMITIN
The effect of diabetes on fat metabolism in the rat A-1298
Metabolism of unsaturated fatty acids of depot fat A-2483

TRIPARANOL
Lipid metabolism--absorption and transport A-2031
Biliary steroids and solution of gallstones A-2224
Post-irradiation hyperlipemia A-2906
Study of liver function in infants and children A-4977
Effect of cortisone and ACTH on fat metabolism H-982
Dietary elements on serum lipids and atherosclerosis H-1119
Intermediary metabolism of cholesterol H-1875
Factors affecting dissecting aneurysm H-4177
Regulation of fat metabolism using antienzyme drugs H-4565
Effects of inhibitors of cholesterol biosynthesis H-5360

TRIPEPTIDASE
See under Proteases

TRIPEPTIDES
Metabolic relationships of ethanolamine phosphate C-2341
Synthesis of antibacterial tri and tetra peptides CY-4318

TRIPHENYLMETHANES
Toxicity and metabolism of di- and triphenylmethanes MY-3692

TRIPHOSPHOPYRIDINE NUCLEOTIDE
See TPN

TRIS (HYDROXYMETHYL) AMINOMETHANE
Drug action on isolated smooth muscle A-2235
Metabolic effects of tris buffer in man and dog A-3707
The use of high pressure oxygen in radiotherapy C-4502
Anesthetic and postoperative intensive care for geriatric patient G-6997
Pathologic physiology of the uremic syndrome H-444
Acute and chronic hypercapnia--pathophysiology in man H-6234

TRISOMES

See also Psilocybin
See also Serotonin
The synthesis of compounds related to physostigmine B-3232
MAO inhibition and anti-depressant correlates MY-3647

TRYPTOPHAN

See also 5-Hydroxytryptophan
Regulation of tryptophan and tyrosine metabolism A-567
Role of amines in pathogenesis of collagen diseases A-637
Tryptophan metabolism in human subjects A-1499
Hypoglycemic agents in diabetes A-1800
Effect of gliadin ingestion on non-tropical sprue A-3136
Tyrosyl hydrogen bonds in globular proteins A-3306
Amino acid metabolism in human subjects A-3811
Amino acid metabolism in rheumatoid diseases A-4013
Metabolism of aromatic compounds by micro-organisms A-4632
Fluorometric measurement of biological materials A-4720
Brain metabolism and systemic disease B-1365
Trace minerals in neurological illness B-1943
Neurosensory clinical research center B-3354
Mechanism of anemia in cancer C-2429
Metabolism of erythropoiesis C-2501
Experimental chemotherapy of cancer CY-3192
2-AAF liver role plus indole-induced vesical tumors C-5378
Genetics of Serratia and biosynthesis of prodigiosin E-2129
Intracellular regulation of enzyme synthesis E-2971
Enzyme synthesis in dissociated embryonic cells G-4715
Mechanism of protein synthesis G-5303
Tryptophan metabolism G-5766
Analysis of aromatic urinary compounds H-5664
Tryptophane metabolism in mentally retarded children M-2347
Study of a somatic trait for chronic alcoholism M-2547
Tryptophan metabolism in phenylketonuria M-2630
Psychological opposition of reserpine and iproniazid MY-2684
Amino acids in neurologic and mental deficiency M-2730
Tryptophan metabolism in phenylketonurics M-2890
Tryptophan in brain function and mental disease MY-3587
Amino acid metabolism in the mentally retarded M-3699

D-TRYPTOPHAN

Metabolism of D-tryptophan by liver and kidney tissue A-1770

TRYPTOPHAN PEROXIDASE

See under Peroxidases

TRYPTOPHAN PYRROLASE

See under Amidases

TRYPTOPHAN SYNTHETASE

See under Synthetases

TSUTSUGAMUSHI FEVER

TUBERCULIN SENSITIVITY

Studies in experimental allergic encephalomyelitis B-1693
Optimum therapy for fulminating tuberculosis E-243
Interactions between phagocytes and tubercle bacilli E-1302
Metabolism of the tubercle bacillus E-1742
Quantitative tuberculin tests in rabbits and guinea pigs E-1991
Mechanism of the tuberculin-type reaction E-2060
Role of histamine in allergic contact dermatitis E-2093
Production of antigens causing tuberculin sensitivity E-2104
Characterization of some antibodies E-2270
Detection of antibodies in tuberculin allergy E-2547
Delayed hypersensitivity in mice E-2689
Mechanism of tuberculin uptake by leukocytes E-2959
Relationship of allergy to immunity in tuberculosis E-3084
Delayed hypersensitivity antibody characterization E-3309
Chemistry of leucocytic pyrogen E-3772
Metabolic activities of leucocytes E-3775

TUBERCULIN TESTS

Pathogenesis of experimental tuberculo-silicosis E-1710
Pulmonary disease and atypical acid-fast bacilli E-2377
Host response to acidfast bacilli antigen components E-2996
Use of tuberculin in epidemiology of tuberculosis E-3022
Atypical acid-fast organisms E-3373
Effect of corticotropin in advanced tuberculosis E-3800

TUBERCULOSIS

See also Antitubercular agents
See also Bacteria, Mycobacterium
See also Lupus
See also Tuberculin tests
Relationship of streptococcal exotoxins to uveitis B-1062
Response of corneal stroma to injections of proteins B-1516
Hypersensitivity and bacteriostasis in tuberculosis E-11
Studies in experimental tuberculosis E-36
Drug-parasite-host studies in chronic infections E-635
Sensitivity of leukocytes to microorganisms E-882
Pathogenesis and resistance in tuberculosis E-1372
Metabolism of the tubercle bacillus E-1742
Aerosol bronchial lavage in tuberculosis E-1885
Succinate oxidation defect in tuberculous guinea pigs E-1999
Stress effect on attenuated experimental tuberculosis E-2021
Experiments on killed anti-tuberculosis vaccines E-2042
Histochemical studies on experimental tuberculosis E-2048
Social factors in intrafamilial spread of tuberculosis E-2063
Role of hypersensitivity in immunity to tuberculosis E-2309
Maintenance of acquired resistance to tuberculosis E-2553
Cellular organization in relation to function E-2628
Effect of dietary factors on tissue and globulin reactions E-2634
The tissue distribution of the rimino-compounds E-2841
Adjuvants with INH and streptomycin in tuberculosis E-2893
Oxidation of hydrazones E-2923
Development of immunizing agents against tuberculosis E-2957
Use of tuberculin in epidemiology of tuberculosis E-3022
Relationship of allergy to immunity in tuberculosis E-3084
Epidemiologic basis of tuberculosis eradication E-3182
Drug-resistant tuberculous infections in children E-3263
Tissue culture studies on resistance in tuberculosis E-3284
A new slide-culture method for acid-fast organisms E-3374
Carbohydrate metabolism in tuberculosis E-3427
Sulfolipid from mycobacteria E-3455
Fractionation of mycobacterial antigens E-3582
Chemotherapy for drug-resistant tubercle bacilli E-3828
Genetic factors in isoniazid metabolism E-3912
Antitubercular pyridylthioureas, mechanism of action E-4089
International center for medical research and training E-4178
A study of silicosis in dust-controlled industries G-5192
Changing public health approach to Spanish-Americans G-5615

Cutaneous tuberculosis

Study of immunologic response to leprotic infections E-2880

Meningeal tuberculosis

L variants in infectious processes E-3637

Pulmonary tuberculosis

Optimum therapy for fulminating tuberculosis E-243
Chemotherapy of tuberculosis E-509

Viability of tubercle bacilli from tuberculous lesions E-1758
Acute infections complicating preexisting lung disease E-2394
Corticosteroids in acute tuberculosis--lung function E-3600
Effect of corticotropin in advanced tuberculosis E-3800

TUBERCULOSIS VACCINES
See under Vaccines

d-TUBOCURARINE
Pharmacological analysis of presynaptic nerve endings B-1816
Defect in myasthenia and other neuromuscular diseases B-3464
Mechanisms of positive inotropic responses to drugs H-4854

TULAREMIA
See also Bacteria, Pasteurella tularensis
See also Vaccines, Tularemia vaccine
Immune response in tularemic animals E-3543

TUNICATES
(Compilation available on request)

TURBELLARIA
Planaria
Sterile culture and regeneration in Planaria G-4711
Oxygen and X-irradiation on vertebrate embryonic tissues G-5483
The role of brain electrolytes in drug action MY-2811
Learning and regeneration in the planarian M-2946
The behavior of Planaria M-4774

TURKEY
See under Demography

TURNER'S SYNDROME
Chromosome and steroid patterns in endocrine disorder A-4469
Genetic studies with cultures of animal cells G-6983

TURNIP YELLOW MOSAIC VIRUS
See under Viruses

TURPENTINE
See also Terpenes
Studies of the tuberculostatic factor E-3363

TURTLES
See Reptiles

TWEEN 80
Factors influencing experimental atherosclerosis H-1088
Mechanism of experimental atherogenesis H-4572

TWINS
Nutrition, metabolism, growth and illnesses in twins A-4363
Early detection of cerebral disorders in children B-1309
Heredity in certain types of cancer C-948
Dento-facial development in twins and their families D-683
Facial and dental growth twins and their siblings D-1309
Investigation of fetal and neonatal death .. G-3166
A developmental study of twins G-5527
A longitudinal study of twins beginning before birth G-6062
Differential fertility in human twins G-6181
Psychodynamic study of identical twins .. M-2468
Social adjustment and attitudes of young twins M-4623
Twin sample location for research-behavioral genetics M-5165

TYPHLITIS
Chick typhlitis--etiology, prevention, transmission E-2124

TYPHOID FEVER
See also Bacteria, Salmonella typhosa
Metabolism of Salmonella typhosa antigens E-4042

TYPHOID VACCINE
See Vaccines, Salmonella typhosa vaccine

TYPHUS
See also Specific rickettsia

Bacteriophage T5

Antigenic structure of bacteriophage E-857

Bacteriophage T6

Biochemistry of viruses and virus-infected cells E-2792
Glucose component of viral nucleic acids E-3845

Barley yellow dwarf virus

Physiology of plant virus infections E-2540

Bean yellow mosaic virus

Ability of aphids to transmit viruses E-2202

Borrelinavirus

Population dynamics of a virus-host system E-2914

Canine distemper virus

The nature and specificity of inclusion bodies E-3820

Canine hepatitis virus

Isolation of viruses from the oral cavity ... D-817
Studies of canine hepatitis virus in tissue culture E-1668
Properties of canine distemper virus E-3873
Freezing and freeze-drying of viruses and rickettsiae E-4137

CELO virus

Differentiation of virus vesicular exanthema E-445
CELO virus as a possible tissue culture contaminant E-4014

Chikungunya virus

Arthropod-borne viral diseases of the Far East E-2686

Colorado tick fever virus

See also Vaccines, Colorado tick fever vaccine
Studies on dengue and Colorado tick fever viruses E-495

Columbia SK virus

Antiviral actions of Propionibacterium extract E-2921

Coupea virus

Virus and nucleic acid structure E-3400

Coxsackie viruses

Possible role of viruses in etiology of cancer C-4534

(contd)

VIRUSES (contd)

Coxsackie viruses

Immunology and epidemiology of certain viral diseases....E-1475
Abnormal development in virus-infected chick embryos....E-2053
The role of viruses in aseptic meningitis..E-2107
Studies on viral antigens and host-virus interactions....E-2405
Relation of virus infection to fibrocystic disease....E-2536
Is pyloric stenosis a viral disease....E-2899
Search for etiology of infections of unknown origin....E-3079
Enteric virus infections in the gnotobiotic animal....E-3215
Animal enteric viruses of pathogenic significance....E-3217
Production of Coxsackie virus by HeLa cells....E-3618
Studies on viral interference in carrier cultures....E-3771

Croup-associated viruses

Adeno- and croup-associated CA viruses in infants....E-3167

Cytomegalic inclusion disease virus

Host-parasite relationships in tissue culture....E-1023

Dengue virus

Arthropod-borne viral diseases of the Far East....E-2686

Duck hepatitis virus

Properties and pathogenesis of duck hepatitis....E-2087

Dysentery virus

The viral diarrhea-mucosal disease complex....E-2268
Masking and latency in animal viruses....E-3615

ECBO viruses

Animal enteric viruses of pathogenic significance....E-3217

ECHO viruses

Bacterial and viral agents in diarrheas of infancy....E-859
Studies on the transmission of poliovirus....E-1256
Immunology and epidemiology of certain viral diseases....E-1475
The role of viruses in aseptic meningitis..E-2107
Antigenic relationships of the ECHO viruses....E-2396
Studies on viral antigens and host-virus interactions....E-2405
Search for etiology of infections of unknown origin....E-3079
Viral and bacterial studies of infectious diarrhea....E-3162
Animal enteric viruses of pathogenic significance....E-3217
Epidemiology of viral respiratory disease....EP-3938
Pathogenicity of enteroviruses....E-4375

Encephalitis viruses
